Bad Temper—Bad Digestion.

Few persons are probably aware how intimately connected is the condition of the digestion organs with the temper and character of the mind.

The one never works well without a sound stata of the other, and hundreds of persons linger out years of sickly existence with an uncontrollable irascible temper, who, if the general health of the body and digestion organs were properly cared for, would be as genial and good tempered as hose by whom they are so unreasonably censured. The claims of DR. KEYSER'S BLOOD SEARCHER upon the readers attention in every state of the health requiring tonic and alterative treatment is such as to warrant us in saying that is rivalless as far as we know; not only as a tonic and depurative to the blood and straining organs, but it at the same time has a gently stimulating operation which does not, like many other stimulants, leave a weakened condition after its use, but a strengthened and invigorated one. The fields of nature have never yielded to research and science a nobler and more wonderful remedy than DR. KEYSER'S BLOOD SEARCHER. It is simple and harmless and can be given with safety in every chronic disease of debility, or where there is want of appetite or a general feebleness of the powers of life. If we could properly present the extraordinary cures made by Dr. Keyser's remedy, his present means of supply would soon have to be enlarged to meet the demand. Reader, we speak the truth, and from evidence before us, that Dr. Keyser's Blood Searcher has performed cures of greater wonder than any we have ever seen recorded. Whether it is the skill of the Doctor or the potency of his remedy, we allow our readers to judge for themselves.

Be careful to get Dr. Keyser's, and take no other, and if it don't help you go and see the Doctor and he will tell you what to do. His Store is 140 Wood street; Consultation office, 120 Penn street. Office hours from 9 A. M. to 4 P. M.

CORPORAL PUNISHMENT AT THE SOUTH.

Mr. TRUMBULL also reported from the same Committee, the House Joint Resolution to prevent corporeal punishment in the late rebel States, with amendments, making it read that "it shall be the duty of the officers of the army and navy and of the Freedmen's Bureau to prohibit and prevent the whipping or maiming of the person as a punishment of any crime, misdemeanor, or any offense, by the pretended civil authority in any State lately in rebellion, until the civil government of such State shall have been restored and recognized by Congress."

APPROPRIATION BILL.

At that hour Mr. FESSENDEN called up the Legislative, Executive and Judicial appropriation bill, on which a debate occurred.

Mr. SUMNER charged the Secretary of the Treasury with controlling his clerks on political considerations.

Mr. FESSENDEN disagreed with the Senator, and others joined in the discussion; finally the question was taken on the amendment, appropriating fifty thousand dollars for temporary clerks in the Treasury Department, and authorizing the Secretary to classify clerks according to character of service. It was adopted.

An amendment was adopted, appropriating fifteen thousand dollars for janitors of the Treasury Department.

Recess until seven o'clock.

Evening Session.—The Legislative Appropriation bill was resumed. An amendment was adopted appropriating $40,000 for facilitating telegraphic communication with the Pacific.

The appropriation for extra compensation to officers of the House was struck out.

DEFICIENCY BILL.

Mr. STEVENS, from the Committee on Appropriations, reported a bill appropriating sums for deficiencies in the expenses of the contingent fund of the House as follows: Miscellaneous items, $40,000; folding documents, $275,000; fuel, light, &c., $700; total, $74,560. Bill passed.

TREASURER VAN DYKE VINDICATED.

Mr. SCHENCK, from the Joint Select Committee on Retrenchment, made a report on the charges against Mr. Van Dyke, Assistant Treasurer for New York, as to the sale of gold, declaring there was no foundation for the statement, allegations or charges implied by the House resolution of January 15th. Report and testimony ordered to be printed.

GOVERNMENT OF THE INSURRECTIONARY STATES.

The House took up the bill reported yesterday from the Reconstruction Committee to provide for the more efficient government of the insurrectionary States.

After some discussion as to how long the debate should last, without action, Mr. ASHLEY, of Ohio, rising to a personal question, sent to the Clerk's desk and had read the correspondence from the Cincinnati *Commercial*, professing to give the circumstances connected with the offering of Mr. Ashley's impeachment resolution. The reading caused much amusement. Mr. Ashley said, of all the falsehoods manufactured and sent from this city by reckless, stupid maligners, this story was the most silly. He had never had, up to the time of offering the resolution, any correspondence or any conversation with General Butler, on the subject, nor had he known what his views are, except from newspaper reports. He had his own views since his first interview with the President—correcting himself—the acting President, after the assassination of Mr. Lincoln. The first gentleman to whom he had read it was Mr. Washburne, of Illinois, and no one would accuse him of want of friendship for General Grant. He had also shown it to Mr. Stevens and two or three other gentlemen. Certainly, nothing was further from his thoughts, or the thoughts of those he had consulted, than the idea of stabbing General Grant in the dark. It was well known that no officer of the army could be impeached; therefore the story on that point was so stupid as to be only worthy of contempt. As to the language alleged to have been used to him by his colleague, Mr. Bingham, no such language was ever used. He would not have risen to a personal explanation on his own account. He had yielded to the judgment of others.

Mr. STEVENS resuming the floor on the bill to provide governments for the insurrectionary States, prefaced his remarks by stating that the reference made to him in the correspondence just read was wholly false. He supported the bill, and said that he would move the previous question at one o'clock to-morrow.

Mr. LE BLOND said the adoption of this law would be the death knell of civil liberty on this continent and the establishment of a military despotism over the country. He opposed the bill as unconstitutional.

Mr. FARNSWORTH said if civil liberty meant the right to slaughter and destroy at pleasure, then he trusted this was its death knell. The bill was framed for the purpose of protecting all people in the insurrectionary States, and the necessity for it was found in the fact that there was at present no protection in those disorganized States afforded by courts and civil tribunals. He believed the bill was in accordance with the views of General Grant.

In reply to a question, Mr. FARNSWORTH said he did not claim a personal knowledge to that effect.

Mr. BINGHAM, rising a few moments before the hour for recess, declared he was not going to yield to the proposition of Mr. Stevens that one rood of territory within the lines of one hundred States was conquered territory. [Voices from Democratic side, "That's right."] A government did not conquer territory that owed it allegiance. He offered an amendment to strike out the preamble and insert in lieu of it the following:

"WHEREAS, It is necessary that peace and good order shall be enforced in the several States lately in rebellion, until the States respectively shall be restored to their constitutional relations to the Government of the United States, therefore" etc. Also, to strike out the words "so called" before States.

The debate was continued by Messrs. BRANDEGE, PIKE and FARNSWORTH in support, and LE BLOND and FINCK in opposition.

Recess until half-past seven.

Evening Session.—After some unimportant business, the SPEAKER submitted Executive communications, including the report from the Secretary of the Treasury relative to the revenue trade between the United States and the British provinces since the abrogation of the Reciprocity treaty.

The debate on Mr. Steven's bill was resumed, Mr. WILSON, of Iowa, in the Chair, as Speaker, *pro tem*.

Mr. BINGHAM spoke in favor of the amendment of the bill. The general purposes of the bill met his hearty approval, but he desired that the legislation of Congress should conform to the Constitution.

Mr. LAWRENCE, of Ohio, sent to the Clerk's desk to be read, an amendment he proposed to offer. He spoke against the bill as unconstitutional, and asked Mr. Boutwell whether Virginia, in which Jeff. Davis had been indicted for high treason, has ceased to be a State. If so, he could no longer be held to answer for it in that State. The language of the Constitution was, that a person shall be held to answer only in the State and district of the State in which he committed the crime.

Mr. BOUTWELL did not reply.

In reply to a question of Mr. Eldridge, Mr. BINGHAM said the States having entered into the rebellion and broken off their constitutional relation with the General Government, the unlimited power for common defense throughout the insurgent States was exercisable by Congress, and remained there.

Mr. MAYNARD asked what effect the bill would have on the existing governments of the South.

Mr. BINGHAM replied that the State governments would evince their functions under this bill by sufferance of the nation, and only to the extent that those commanding officers might permit. He did not suppose it was intended to deny by this bill, to those organized governments the right to go on and enforce simple contracts between man and man. He did not suppose it was intended to enforce contracts or the law of marriages and divorces through court martial or military commissions.

Mr. MAYNARD inquired further whether the passage of this bill by Congress would commit it so far to the recognition of those State organizations as to embrace it hereafter if it thought proper to set them aside.

Mr. BINGHAM did not suppose it would, because Congress might require those State Governments to go still further.

Mr. HISE made a constitutional argument against the bill.

Mr. INGERSOLL maintained that there were two sorts of States, geographical and political. The late insurrectionary States were geographical States, but were not under the Constitution political States in the Union. No one need fear to vote for this bill, lest it might make matters worse in the South, for things there were bad as bad could be. He had no fear of trusting the power in this bill to the Government, and was confident they would be received firmly, wisely and judiciously.

Mr. RANDALL asked why the President's authority, which had been originally in the bill, had been struck out.

Mr. INGERSOLL said it was because the people could not trust him.

Mr. HISE asked whether, if the President could set aside any orders issued by Gen. Grant, there was any use in passing this bill.

Mr. INGERSOLL said he did not think the President would have pluck to do it; and if he refused to execute the laws of Congress it would be good ground for impeachment.

Mr. STROUSE—The only ground you ever will have.

Mr. TRIMBLE enquired whether Congress had power to pass a bill overruling the constitutional powers of the President.

Mr. INGERSOLL declined to admit that this bill did so. It simply assigned to the Commanding General of the army to discharge certain duties. He then discussed the general bearing of the bill.

Mr. SHANKLIN obtained the floor.

Mr. TRUMBULL gave notice of an amendment he proposed to offer, that no person should be held for a capital or otherwise infamous crime, except by presentment of the grand jury, &c.

NEW ROUTE TO THE PACIFIC.

On motion of Mr. CONNESS, the Secretary of War was directed to have the territory between the Rocky Mountains and Sierra Nevadas surveyed for a new route to the Pacific. On his motion $5,000 were appropriated for the collection of statistics on the subject of mines and mining.

SALARY RAISED.

On motion of Mr. WILLIAMS, the salary of the Chief Clerk of the Senate was raised to $4,000, and of the Sergeant-at-Arms to $5,000.

The Question of Inland Commerce Between the East and West.

THE RESULTS OF THE CONVENTION OF TOBACCONISTS.

The New Tax Bill to be Reported to the House.

THE FEBRUARY STATEMENT OF THE PUBLIC DEBT.

The Differences Between Gen. Grant and the Indian Bureau.

WASHINGTON, February 7, 1867.

GREATER FACILITIES FOR TRADE BETWEEN THE WEST AND EAST.

The report of General I. T. Hatch, of New York, sent to the House by the Secretary of the Treasury, on our inland commerce, takes ground against the idea that the enlargement of the Canadian canals would benefit our commerce. It claims to have demonstrated that the Erie Canal is the natural and cheapest channel for Western commerce; that it has carried heretofore, as it will carry hereafter, the bulk of the Western commerce; that the geographical and commercial causes which have prevented any serious diversions of business from the Erie Canal by the Canadian canals will operate more powerfully in the future than in the past. Instead of the free exchange of products and the free transit of them through each country, it urges the co-operation of the West with the State of New York to secure National aid in favor of its former proposition.

The Secretary, in his letter transmitting the report to Congress, says that the investigation has evidently been made by Mr. Hatch with fairness and fidelity, and the conclusions which naturally arise from the considerations presented by him point to the improvement and enlargement of our means of transportation through our territory for our vast western commerce in preference to those of the Canadas. He says: "The arguments in favor of the latter appear to be more *specious* than sound, and I therefore take pleasure in approving the conclusions arrived at in Mr. Hatch's report."

THE TOBACCO CONVENTION.

The Tobacconists' Convention reassembled to-day, when the Committee on Organization made the following report, which was agreed to:

President—F. A. Sprague, of Ohio. Vice Presidents—J. C. Evans, of New York; W. Rinehart, of Pennsylvania; G. W. Gall, of Maryland; R. B. May, of Virginia; Judge Buchner, of Indiana; B. Lowenthal, of Illinois; J. J. Bagley, of Michigan; J. B. Casey, of Kentucky; D. Bronson, of Ohio; and E. J. Whitlock, of Brooklyn. Secretaries—A. McDonald, of Lynchburg, Va., and W. H. Mason, of Philadelphia. Treasurer—D. H. Miller, of Baltimore.

The commission merchants who withdrew yesterday, appeared this morning in accordance with the action of the Convention, and took seats as members.

The following resolutions were adopted by the Convention:

First—To exclude tobacco from that provision of the Internal Revenue law which exempts from tax the product of manufactured articles from institutions for the deaf, dumb and blind.

Second—An amendment to the Revenue laws to allow two per cent., for evaporation.

Third—A deduction of tax where tobacco is damaged by fire, *pro rata*, with the damage.

Fourth—That confiscated tobacco shall be sold subject to tax, and be destroyed if bids in open market do not cover the tax.

Fifth—The appointment of a Committee to confer with proper parties, in order to secure legislation which will relieve the manufacturers of tobacco.

It was resolved, as the opinion of the association that the tax on manufactured tobacco, whether manufactured of leaf stems or imitation, into plugs, cut, smoking, or snuff, should be uniform, and each of them bearing the same tax.

INDIANS MATTERS.

Delegates from fourteen tribes of Indians from Kansas, now here, have agreed with Commissioner Bogy upon the preliminaries of treaties which will be signed this week. These Indians have agreed to remove to what is known as the Leoas land, in the Indian country, formerly occupied by the Creeks and Seminoles. The lands in Kansas belonging to them are valued at from one to four dollars per acre, and are to be sold and the proceeds invested for their benefit.

The differences which existed between the Indian Bureau and the Commander-in-Chief of the army, relative to the appointment of the military part of the commission to investigate the cause of the last massacre at Fort Phil. Kerney, have been harmoniously adjusted, and Gen. Sully and Colonel Parker have been designated as the military officers who will be assigned to that duty. It is believed that the result of this mission will be to counteract the bad feeling which has shown itself among the Indians, and avert other troubles with different tribes which are threatening.

THE NEW TAX BILL.

The Ways and Means Committee have agreed to report an internal tax bill making a general reduction of about $21,000,000. The tax on manufactures will remain at five per cent. No reduction is made in the tax on whisky, or any other prominent article. The bill consists of amendments to the present law relating to articles not generally important. The Committee will take up the tariff bill to-morrow, but will probably not report it to the house until the close of next week.

TRADING WITH THE INDIANS.

General Terry, commanding Department of Dokota, has issued orders, dated at his headquarters, Fort Snelling, Minnesota, permitting Indians traders in the Department to locate their stores on Military Reservations.

General Terry has also issued an order, under instructions from the War Department and General Sherman, setting forth that hereafter Indian traders located at military posts in the department of Dakota will be permitted to sell ammunition to Indians, and under the orders and supervision of the post commanders respectively, and the post commanders will be held responsible that only such quanties of powder and lead are sold as may enable the Indians to obtain their subsistance. They will not permit them to be sold in such quantities as will enable either bands or individuals to accumulate any stock beyond what they require for immediate use.

NEWLY APPOINTED OFFICERS OF THE ARMY.

A communication from the Secretary of War, to-day, was transmitted to the Senate, enclosing a list of 227 officers who had not joined their stations with the reasons why they had not reported as ordered. A few have been granted leave of absence, but a large proportion have not signified their acceptance of their appointment.

NAVAL OFFICER AT NEW YORK.

[From Dispatches to the New York Press.]

The House Committee on Claims propose to give an increase of contract pay to iron clad contractors, praying for relief, in accordance with the amount of each claim, but they may refuse to give any relief in some cases.

General Sheridan has been summoned before the Southern Railroad Investigating Committee, and not before any other.

The Retrenchment Committee will report, it is understood, that their investigation not only exonerates Mr. H. Van Dyck, but vindicates his management of the subtreasury in New York. The charges were found to be based on the merest street rumors.

The total amount of Government sales of gold since October, 1866, has been only six millions of dollars.

General J. J. Bartlett has been nominated for Minister Resident at Stockholm, vice McGinnis, rejected.

It is said the Retrenchment Committee will report in favor of abolishing the naval offices at New York, Philadelphia, Boston and Baltimore, and have the duties performed by an Auditor, at five thousand dollars salary, without fees.

The Senate will confirm the nomination of General Dix as Minister to France.

F. W. Seward, who has returned from his secret mission, is engaged on his report. If it does not transpire that we possess the Island of St. Thomas before the first of January next, it will be a matter of surprise.

The Lexington, Virginia, *Gazette* says Ex-Governor Letcher has received his pardon.

The Ways and Means Committee have agreed to an important amendment to the Tax Bill, in regard to whisky, providing that all whisky offered for sale at a less price than the tax of two dollars per gallon, is to be seized and confiscated. Other stringent regulations are provided which, it is thought, will effectually prevent the gross frauds which have been perpetrated.

The Sub-Finance Committee of the Senate have decided to submit a new loan certificate bill, based on the one emanating from the Treasury Department.

The friends of the bankrupt bill are hopeful of its passage. The return of several absent Senators will be awaited before it will be called for another vote in the Senate.

The first sworn evidence before the full Impeachment Committee was heard on Wednesday, and related to the President's exercise of the pardoning power.

FROM NEW YORK.

Details of Distress in the South—Ten Thousand Dollars' Worth of Corn to be Sent to Alabama—Change in the Ferry System—Heavy Robbery—The Board of Trade Protects Against the Tariff, &c., &c.

NEW YORK, February 7.

GREAT DISTRESS AT THE SOUTH.

A letter to the Southern Relief Commission, from Mongomery Ala., January 31st, reports great destitution. There is not a county in the State to which we have not been compelled to send food to the poor. There are not less than forty thousand persons in the State that will have to be fed by public charity until the crop is matured, and a large number will require partial relief. The great cry is for bread. Any contributions for our suffering people will be duly appreciated and properly distributed. The Relief Commission voted to send ten thousand dollars' worth of corn for distribution in Alabama.

FROM KANSAS.

Aid to the Leavenworth and Galveston Railroad—The Salt Well at Lawrence a Great Success—A Case of Lynch Law—Bribery in the Senatorial Election.

LAWRENCE, KANSAS, February 7.—Douglas county yesterday voted in favor of subscribing three hundred thousand dollars, in county bonds, to the capital stock of the Leavenworth, Lawrence and Galveston Railroad. This insures the immediate commencement of work at this point.

The Salt Well, recently noticed, is yielding one hundred bushels of salt daily, with only a small cistern pump.

TOPEKA, KANSAS, February 7.—A few weeks since, a notorious desperado named Jack McDowell, hired a span of horses at Council Grove, to go to Junction City. Not returning, the owners of the horses traced him to Omaha, and brought him back, on Friday last and he was very defiant; threatened to burn the town and kill sixteen of its citizens, whom he had marked. He further stated that he was a rebel and was in Quantrell's raid. The citizens took him from the sheriff on Sunday night, and hung him.

The House to-day appointed a committee to act with the Senate Committee, to investigate charges of bribery in the late Senatorial election.

CITY AND SUBURBAN.

Our Guests.

Yesterday, at noon, the members of the Pennsylvania Legislature arrived in this city, and were received by the various committees appointed to extend to them the hospitalities of the city by the Board of Trade and the City Councils. They were escorted to the Monongahela House in carriages, where they are now stopping. Governor Geary, owing to the illness of his estimable wife, was unable to accompany the delegation. The following is a list of the distinguished visitors, so far as we could ascertain:

Senator C. Burnett, Monroe; John H. Barton, Delaware; Allen Craig, Carbon; Senator McConaghy, Gettysburg; D. S. Koons, Luzerne; C. E. Boyle, Fayette; John Phelan, Greene; Philip Long, Cumberland; T. Harner, Bucks; J. McPherson, Mercer; Lindley Maples, Philadelphia; Lamar Subars, Philadelphia; John P. Linton, Cambria; S. G. Boyd, York; John Ewing, Washington; Thomas Chase, Warren; W. B. Waddell, West Chester; George Wilson, Pittsburgh; Senator Bigham, Pittsburgh; Speaker John P. Glass, Pittsburgh; William Peters, Pittsburgh; S. Chadwick, Pittsburgh; Frank Meehling, Leechburg; Philip Breen, Schuylkill; Kennelly Robinson, Schuylkill; P. F. Collins, Schuylkill; Senator McCandless, Philadelphia; Warren Cowles, McKean; Senator G. P. James, Doyletown; C. D. Roush, Union; E. D. Roath, Lancaster; D. G. Steacy, Lancaster; Senator John Walls, Lewisburg; Edward Hood, Delaware; Geo. A. Baker, Philadelphia; Senator Searight, Fayette county; A. Armstrong, Lancaster; J. W. Kimmell, Indiana; J. McPherson, Mercer; George A. Quigley, Philadelphia; Joseph E. Orwig, Union; John Weller, Somerset; Nicholas Hilge, Adams; Senator John C. Brown, Mercer.

During the afternoon our visitors were called upon by many of our prominent citizens, and in the evening, pursuant to invitation, the large majority of them paid a visit to the New Opera House where "L'Africaine" was produced by the Strakosch troupe.

To-day the members will visit the House of Refuge, the Penitentiary and Dixmont Hospital. To-morrow the Soldiers' Home, St. Pauls Orphan Asylum, Passavant's Hospital, Mercy Hospital, and other places of charity will be honored with a visit.

Guns, Rifles, Pistols and Hardware.

The attention of our readers is directed to the card of Mr. Andrew Beggs, dealer in Guns, Rifles, Pistols, Hardware, Cutlery and general Variety goods, No. 3 St. Clair street. The proprietor of this favorably known establishment has recently made large additions to his stock of fine goods in his line and offers now as superior inducements for the patronage of the public as any other Western house. Sportsman will always find the very best fowling pieces, rifles shot guns &c., here, which are sold at remarkably low prices. A full stock of ammunition for all sorts of "shooting sticks" including pistol cartridges is also kept on hand, and persons having occasion to purchase the articles will do well to favor this house with a call. Mr Beggs is a finished practical mechanic and attends carefully to the repairing of guns and pistols, the grinding and setting of razors and scissors, and the inserting of pen knife blades. All descriptions of hardware, tools, fancy articles &c., &c., will likewise be found at this house. We cheerfully commend Mr. Beggs to the purchasing community knowing him to be fair dealing and honorable in all his business transactions, and that every article sold by him will prove all that it is warranted at the time of sale. Remember the place, No. 3 St. Clair street, second door from the bridge.

Not Enough.

The laborer is worthy of his hire, and if this is true in any case it is particularly true of the class of whom so much is expected and demanded as of the police. We not long since called attention to the very insufficient remuneration afforded the police officers of Pittsburgh, and urged an improvement. In Allegheny city the matter is still worse than here. The force is very much smaller and the salaries paid are much less, entirely disproportioned to the labor required of the men. The salaries paid the four day policemen are fifty dollars per month each, and they are not allowed any fees. The twelve night watchmen get but two dollars a night. The Chief of Police gets eight hundred dollars per year, about *nineteen cents per day* more than the night watchmen. The Captain of the night watch receives two dollars and thirty-five cents per day. It is true that the members of the Allegheny police have less to do than the policemen of New York or even Pittsburgh, but it is an evident fact that they are very insufficiently paid, and we think the councils will further the interests of the city by giving early attention to the subject.

Good Time.

One of the luxuries of life, or rather one of the vicissitudes of life in this fast age, is the possession of means for ascertaining just precisely the correct time. A man having a watch, no matter how excellent it may be, if he have no standard to judge whether or not it is keeping perfect time, is liable to meet with a thousand vexatious experiences. He is likely to get to the depot just in time to see the train moving off; he is likely to lose money by not being on time at the Board, and to forfeit friends by being laggard in his engagements. W. Dunseath & Co., No. 56 Fifth street, have what may be called a perfect time piece. It is a Marine Chronometer, manufactured expressly for them by John Bliss & Co., of New York. From August 31, 1866, to February 4th, 1867, this clock lost *thirty-five seconds*. We venture the assertion that no other time-piece anywhere has done better than that. A man having one of their good watches regulated by this piece, is safe for all matters of time.

Amusements.

THE OPERA.—To-night the popular and thrilling opera of Lucretia Borgia will be produced at the New Opera House by the great Strakosch troupe. Seats may be secured at C. C. Mellor & Co.'s well known music store, 81 Wood street. To-morrow afternoon the Barber of Seville will be produced, and in the evening the season will close with the beautiful opera of "Norma."

MASONIC HALL.—The Fakir of Vishnu still holds forth to large audiences at Masonic Hall. To-morrow afternoon a gift matinee will be held, and the evening will close the season. By all means go and see the great wizard.

CITY HALL.—The Universalist Fair still continues to draw a large and fashionable attendance. It is admirably conducted, and is in every respect worthy of a visit.

COMING.—The wonderful and accomplished magician, Professor M'Callister is coming to this city to give a series of performances.

Carriage Drivers in Trouble.

On Wednesday evening Thos. Donahue a carriage driver, was arrested on a charge of disorderly conduct and taken before Mayor McCarthy. It appears that Donahue had his carriage waiting for the Opera to close—the horses standing on the crossing. A gentleman ordered him to remove his horses from the crossing, which at first he refused to do. He afterwards turned the horses partially around, but soon resumed his former position. Officers Buchanan and McGrady, of the special police, interfered and ordered Donahue to remove his horses from the crossing. Still he refused, whereupon the officers caught the horses by the head and commenced backing them. Donahue interfered and attempted to horsewhip the officers. He was released on bail for a hearing yesterday, but the hearing was further postponed until to-day.

Too Easy.

Daniel M'Intyre, of Allegheny, was taking the world too easily yesterday afternoon. He had been drinking to considerable purpose, and got very drunk in the legs—so drunk indeed that locomotion became an impossibility, and he sat down on a cellar door at the corner of the Market House. He sat there but a short time, for he very speedily fell over into a recumbent position, and fell fast asleep. Officers Hess and Campbell very soon aroused him and lugged him into a cell in the lock-up, where he was at last accounts still sleeping off the bad whisky that was in him.

Dress Goods.—The balance of our fall and winter stock to closed out, at greatly reduced prices. J. W. Barker & Co., 59 Market street.

A New State Loan.—State Treasurer Kemble advertises to-day for a new State loan of $23,000,000, to be devoted to the reduction of over due gold interest bearing State securities. The new loan will, of course, be promptly taken, as it affords a safe investment. See advertisement in another column.

Further Deferred.—The argument relating to the eligibility of Sheriff Cluly, which was appointed to be heard in the Court of Common Pleas to-day, has been further postponed by consent of counsel.

Allegheny Common Cases.—Two drunken cases were before Mayor Morrison yesterday morning and paid the fines imposed, after which they departed.

One Hundred.—Plaid Wool Long Shawls at $5,00 each J. W. Barker & Co., 59 Market street.

Arrest of a Larcenist.

Yesterday morning Chief Hague received a dispatch from Chief B. Campbell, of the Harrisburg police, requesting him to arrest a man named Porter Buchanan, who was coming here on the mail or fast line. Chief Hague proceeded to the depot, and on the arrival of the Baltimore express, at half past one o'clock, found his man and arrested him, taking him to the lock up. He telegraphed at once to Chief Campbell of the arrest, and received an answer requesting him to hold the prisoner, as the officer would be on this morning after him. The prisoner is five feet six or seven inches high, has dark hair and eyes, black mustache, and wears black coat, light pants and vest. He is arrested on charge of larceny. The dispatch stated that Buchanan had with him a tall, rough-looking man, wearing a broad brimmed slouch hat, but he was not with the prisoner at the time of the arrest.

Fire.

Yesterday morning at about half past nine an alarm sounded from box No. 42, and subsequently, by way of correcting the first alarm, from box No. 52 corner of Pride street and Pennsylvania avenue. The alarm was occasioned by the burning of a small frame house, belonging to Jacob Kutzman, butcher, No. 337 Pennsylvania avenue. They were smoking some meat at the time, and it is supposed that the flames accidentally caught the wood work. The building was a small eight by ten structure and although unfitted for use, by reason of the fire, the loss is very trifling, fifty dollars covering the entire amount meat and all. The flames were soon extinguished. The firemen were misled by the first alarm and with the exception of the Relief Company, did not reach the scene of the fire.

New Telegraph Company.

The Pacific and Atlantic Telegraph Company of the United States, have opened their office at No. 40 Fifth street, opposite the old Theatre. The business of the Company is superintended by our energetic fellow citizen, Colonel E. J. Allen, under whose management we have no doubt the affairs of the company will prove successful. The line has been extended to all the Eastern cities up the valley of the Monongahela to its headwaters, and through its connections with the Merchant's National Line, to the Oil Regions. A line is being rapidly put up towards St. Louis, and in a short time lines will be extended to the principal cities of the Union.

More Horse Stealing.

On Wednesday night another haul was made by the horse thieves. On that night a valuable horse belonging to Dr. Lininbrink, of Rochester, was stolen from his stable, together with a saddle somewhat worn, and having wooden stirrips. The horse was about fourteen hands high, of a dark brown color, and having a long tail.

On the same night two horses, one cream colored and the other iron gray, were stolen from the stable of a lady, living at Baden, four or five miles from Rochester. The animals were traced in this direction. The two horses last mentioned were recovered in Allegheny. No clue to the thieves exists.

Tin Wedding.—Our well known and respected fellow citizen, Wm. N. Ogden, Esq., celebrated the tenth anniversary of his marriage to his estimable lady, last night by a thorough, first class tin wedding. A large number of guests were in attendance and each bestowed upon the happy couple the customary tin tribute of regard and friendship. Indeed, the presents were so large and numerous as almost to burden the household with the mechanical products of the tinker. We trust our friend and his good wife may live to enjoy their golden wedding, and may it be as pleasant as was the tin one last night.

We Bespeak attention to the advertisement of Loughry & Frew in this day's paper. Mr. Loughrey's saddle, Harness and Trunk establishment at No. 102 Wood street, has been known hitherto as one of the best in the city. We are glad to see that the high character of Mr. Alexander Frew as a man and as a skilful foreman of the manufacturing department has resulted in his being advanced to a full share of the business, which under the joint management of such experience and skill, we expect to see grow on their hands until they shall cry out, hold! enough!!

Forcible Entry.—A man named Frederick Henn yesterday made information before Justice Ammon, of East Birmingham, charging George Heltzell, with forcible entry and detainer. Henn is a tenant in a house owned by Heltzell, in Temperanceville, where he keeps a barber shop. Henn, it appears, owed Heltzell some rent, and not paying it when due, Heltzell, he alleges, took forcible possession of the house, shut up the shop and locked the doors. The accused was arrested and held to bail for trial.

Great Reduction.—In cassimeres, Patterns and short lengths at 35 per cent. reduction. J. W. Barker & Co., 59 Market street.

A Wife Beater Brought to Grief.—Mrs. Elizabeth Meich, of Pitt township, yesterday made information before Alderman Morrow, charging her husband, Andrew Meich, with assault and battery. She alleged that he had struck her three or four times on the head, and knocked her down. A warrant for the arrest of the wife beater was issued, and yesterday afternoon he was nabbed while getting into a wagon near the Alderman's office, and was held to bail for a hearing.

Fire in Birmingham.—On Wednesday evening, at about eleven o'clock, a fire broke out in the brewery of Henry Klinzing, situated near the corner of Joseph and Page streets, East Birmingham. Before the fire had made much headway it was discovered and extinguished with considerable difficulty before any material damage was done. A bad flue.

Balmoral Skirts.—At greatly reduced prices, at 1,50 and upward, at J. W. Barker & Co.'s, No. 59 Market street.

Ticket Thieves.—Last evening between six and seven o'clock, Mr. Frederick Ames, of the Penn Street Varieties, caught three boys named John Kelly, Norris Stutler and Wiliam Gillespie, stealing tickets from his ticket box. They were arrested and conveyed to the lock-up, where they still remain. A large amount of tickets had been stolen, though the exact amount stolen has not been ascertained.

A. B.—Hans Michel, of Allegheny city, was before Alderman Taylor yesterday, charged on oath of T. J. Gult, with assault and battery. The deponent alleges that the defendant struck him, knocked him down, and afterwards kicked him. The accused was arrested and held to bail in the sum of three hundred dollars for a hearing on Saturday.

Sent Over.—Joseph Weaver, convicted last week in the United States Circuit Court of passing counterfeit United States currency, and sentenced to five years' imprisonment in the Western Penitentiary, was yesterday taken to his new home by Deputy United States Marshal Christian Feld.

Another Case.—Of those handsome fast colored prints at 12½c, J. W. Barker & Co., 58 Market street.

Paine & Co's Argentine.—For instantly plating all articles of copper, brass or German silver, with pure silver, where worn off, and for cleansing and polishing silver or silver-plated ware. Warranted to contain no quicksilver or acid, or any injurious article. For sale by J. Sample, Allegheny, and all druggists. dels:tf

Got Hit.—Isaac Hames yesterday made information before Alderman Taylor charging George McClelland and Louis D. Speice with assault and battery, alleging that the accused struck and maltreated him. The defendants are employed at the Pennsylvania Railroad Round House.

The Fair in the City Hall is in the full career of success. Pleasant evenings, good music, the closing grand promenade, and other attractions, are nightly filling the hall with a delighted company.

Boys in Blue or any other man, order your shirts made at Murdock & Putnam's, 72 Fifth street.

New York Dry Goods Matters.

NEW YORK, Feb. 7.—The Dry Goods market exhibits a more cheerful aspect. Trade not yet lively, but much better, and prices of all staples have apparently touched the bottom. The passage of a moderate tariff bill by Congress is regarded as sure, and this will have a tendency to raise the prices of all woolens, particularly the low grades of heavy goods. Standard Brown Sheetings firm at 21½@22—stock of these light, Augusta and Roxbury Standards in request at 20. Fine Sheetings like Atlantic and Pacific more saleable at 18. COMPETITATIVE EXAMINATIONS.

When Mr. JENCKES, of Rhode Island, introduced his bill to regulate the Civil Service of the United States, by requiring all place holders and all applicants for places to be subjected to examination as to their qualifications, and by requiring that the most competent should in all cases be retained or appointed, we expressed our hearty commendation of the principles of the bill, and of the methods provided for attaining the end in view. The bill went to the Committee on Retrenchment, and was reported back to the House not essentially modified. A few days ago Mr. JENCKES made a speech, of great ability, in defence of it. In it he stated that the committee, having been raised and instructed to examine the expenditures of all branches of the service of the United States, after long deliberation and examination of the subject, came to the conclusion that the present great expense, and inadequacy of result to the expense which is everywhere found, are due rather to the quality and character of the *personnel* of the civil service, than to the number of employees or to large salaries. The committee have, therefore, recommended the Civil Service Bill as the most practical and effectual method of causing retrenchment in government expenditures.

If mischievous ingenuity had been set at work to devise the most vicious system that could be tolerated, it is quite probable the one now in existence would have been hit upon; certainly something nearly akin to it. Perhaps it would be an exaggeration to say that no respect whatever is paid to the intrinsic requirements of the public service, but it is the literal truth to say that the proper performance of official duty is quite subordinate. Men have for a long period found it comparatively easy to obtain public employments who found it difficult to attain situations of equal responsibility in private pursuits.

Appointments to office have been generally made not so much in view of the qualifications of the applicants as upon the earnestness with which their cases have been pressed and the importance of the persons by whom they were backed. Commonly, appointments have been made in reward of political services; often to compensate for usefulness to members of Congress.

Moreover, the tenure of office has been so frail, and the term so short, that men of capacity and energy have rarely been willing to engage except as a temporary expedient. Four years has been about the limit that could be depended on, and with little or no prospect of promotion in case of expertness and efficiency. Few men of the better sort have been willing to take several years out of what ought to be the most productive period of life for a bare subsistence.

What is needed is to raise public service in the departments or in connection therewith to the rank of a profession or regular calling. Provide that no individual shall be appointed unless upon rigid examination he shows the requisite degree of fitness, and then keep him so long as he behaves well and his faculties hold out, giving him a chance to rise from one grade to another.

Two principal advantages would result from this plan. First, The public would be well served, and at less expense than now. Second, Party politics would become less a wild scramble for office, and more a fair and honorable division upon governmental principles and measures. A real objection to this basis of appointments we have never heard stated, and do no expect to.

THE NEW SCHEME.

Already the plan of Reconstruction hatched between the President and the Southern Governors has been subjected to material alteration. The clause providing that representation in Congress shall in no case be withheld, objections to which we pointed out yesterday, has been stricken out. It is probable other modifications, perhaps some for the worse as well as for the better, will be made before the plan shall be formally announced at the opening of the new Congress. It is hardly worth while to spend time in elaborately discussing it until it shall take definite shape.

It is important, however, to bear in mind that the President, in devising and recommending this new Policy, renounces a cardinal mistake, which was that States by rebellion incurred no forfeitures, and, consequently, that Congress had no authority for imposing conditions of reconstruction. He now asks Congress to do exactly what he has always contended it had no right to do, and to do it in the very manner he denounced as most objectionable. Having gone so far as to consent that terms may be laid on the seceding States; that Congress has the power to determine what those terms shall be, subject to ratification by the States in the usual form; it would seem that he has relinquished all the ground he ever had to stand upon. So long as the schemes of Congress were resisted by him on the high ground that the Constitution gave the Houses no right to act in the premises, an insurmountable wall of separation existed between the executive and legislative departments. As he has shifted his ground, he has narrowed the controversy between him and Congress to an issue of less or more, on which it is simple folly for one man to set up his opinion against many, with whom he must necessarily act.

OUR GUESTS.

Our distinguished guests from Harrisburg arrived yesterday at noon, and were escorted to the Monongahela House by the reception committees appointed by the City Councils and Board of Trade. The number of visitors is not so large as expected, but the gentlemen who have responded to the invitation are representative men of the Legislature, and as such entitled to the warmest welcome and hospitality of our citizens. This morning they will visit the House of Refuge and Penitentiary, and proceed from thence to Dixmont Asylum. The Jail, Soldiers' Home, Passavant's and Mercy Hospitals, several orphan asylums and other places of public and private charity will, in all probability, be visited on the day following. We again urge upon our citizens to leave nothing undone to secure the enjoyment of our distinguished visitors, and hope the members may carry away with them no half-formed ideas of our municipal importance and hospitality.

CHARLES SUMNER, according to rumor, is to retire from political life at the close of his present Senatorial term, in 1867, and will spend a number of years in Europe. Governors Andrew and Bullock are already named as candidates for he succession.

A BREATHING SPOT.

It is a standing source of regret and shame that the city of Pittsburgh has not one common, green spot within her boundaries set apart as a park or common ground for the use and enjoyment of her citizens. Whoever planned the town had little idea of the comfort and pleasure of its inhabitants. But it is a matter of the past and cannot well be remedied now, and all are forced to look towards Allegheny for parks and pleasure grounds. There are several large plats of ground laid out in our sister city for common use, and from the spirit of enterprise which characterizes the people across the water we can safely promise that they will be ornamented and improved at no late date. A Committee was recently appointed by the Allegheny Councils to take into consideration the subject of improving these grounds, and we learn that they will report favorably at the next meeting of the body which empowered them. The estimated cost of the improvement will approximate only $200,000, and as the property fronting on the grounds will be greatly enhanced in value, it is suggested that the increased taxation alone from it, will more than pay the full amount of the expenditure, inside of ten years. To this the lot owners will hardly object. Their individual share of the taxes would prove trifling and insignificant when compared with the vast improvement the accomplishment of the project would secure to their property. A bill setting forth the estimates of the cost, the plans for improvement, the way of paying for and executing the work, has been prepared and will accompany the report of the Committee, for the sanction of Council, previous to being forwarded to the Legislature. We sincerely hope that the efforts of the Council in Allegheny to supply a breathing spot for the population of the two cities will meet with encouragement, and that the subject will not be dismissed till the good end proposed is attained.

INSURANCE COMPANIES.

The marine losses of Insurance Companies in this country, principally in New York and New England, have risen, during the past year, to the vast sum of one hundred million dollars. These losses, in addition to those resulting from fires, have made inroads upon the capital of many companies. In consequence seven first-class companies in New York and nine or ten in New England have been compelled to go into liquidation. According to the statements published in the advertising columns of the newspapers, the following were the absolute losses paid by some of the principal companies during the past year, and which create sudden alarm in New York: Atlantic Marine Insurance Company, $5,683,895; Sun Marine Insurance Company, $2,866,407; Commercial Marine Insurance Company, $354,722; Mercantile Marine Insurance Company, $813,186. Other companies do not give the losses, apart from expenses, and hence no statement can be made in their cases.

Excessive competition in the business of insuring, has led to a neglect of the ordinary rules of prudence, and risks have been taken with a carelessness bordering on infatuation. It may reasonably be anticipated that these prodigious losses will inspire all companies that escape failure with a larger degree of circumspection.

MR. WILSON'S BILL, in both its essential features, will meet with general approbation. It is most proper that a fixed and definite rule should be established for succession in the Executive department, in case of the death or removal of both the President and the Vice President, and that the succession should be determined by an appeal to the people at a special election. Then November is quite too late in all the Northern and Northwestern States for the election. An active canvass is a great educational instrumentality, absolutely essential to the maintenance of free institutions. Up to the middle of October the weather is favorable for assemblies of the people in the open air. Later, such meetings are attended by serious inconveniences. Let the bill pass.

THE secret of the repeal of the law providing for a new election in the city of Baltimore has leaked out. It appears that in the new franchise law, throwing open suffrage to the traitors, all citizens were clothed with this right, and it was only when the fact was pointed out that under this statute, and by the plain meaning of the civil rights law, negroes were citizens and could therefore vote in the coming election, that they found out their mistake. Alarmed at the prospect of losing everything, the Swannites hastily repealed the law, and the present city government will continue, unless intermediately dismantled, until November of 1868.

IN 1866, sixteen million tons of coal were mined and marketed in Pennsylvania, an increase of two million over 1865, and of four million over 1860. Value, $80,000,000, this year.

In 1866, the quantity of petroleum produced in the State was ninety million of gallons. Value, $47,210,379.

In 1866, the product of pig iron was 646,268 tons; an increase of 100,000 tons over the year before, and valued at $31,020,864.

The aggregate value of these three articles, $158,231,243.

THE impression gains strength that the General Railroad bill will become a law; though there are reasons to apprehend that amendments may be forced into it which will restrict its usefulness. The idea that seems to prevail among the members favorable to the bill, is to get it through now in the best shape possible, and trust future Legislatures to rectify deficiencies. We defer to their superior judgment, though there are potent reasons for not taking anything unless all that is absolutely needed can be obtained.

IN the course of debate in the Senate on the Free Railroad bill, Mr. Lowry, of Erie, recalled the fact that Governor Geary, early in the canvass, pledged himself to sustain the measure, and made the strong assertion that he would have been beaten fifty thousand if he had not done so. We think the Senator did not put the figure above the mark. And this statement casts light ahead. What if the bill now under consideration shall be defeated? Will not somebody's crockery get smashed by the people?

IN the State Senate, on Wednesday, the Democrats, false to their name, but true to the spirit of caste and privilege by which they are always animated, voted unanimously against allowing black people to ride in public conveyances.

THE Board of Health of St. Louis are about to inaugurate a general sanitary reform in that city.

A Tunisian Saloon in Paris.

The Paris correspondent of the London *Star* writes as follows:

At the corner of Quai d'Orsay and the Avenue de Suffren, the scaffolding of a vast edifice, surmounted by two cupolas, has sprung up within the last few days. It is to be the palace of the Bey of Tunis, who is expected to make his residence for two months during the next summer. It will eventually be taken to pieces with the utmost care, and transferred to the neighborhood of Tunis. The palace will cover a superficial area of 700 metres. It is constructed in wood, on a superstructure of masonry. You reach it by a *peron* of marble, which will measure three yards and a half square, adorned by marble lions. It contains a vast hall of justice, seventeen yards square.

The centre of the palace will consist of a *patio*, with its traditional fountain and numberless porticoes. The state apartments will be reached by crossing this court. The principal *salon* is to be open on a *moucharabiah* or hanging verandah surrounded by lattice work, which will conceal from the gaze of the Paris public the fair houris who will be enshrined within its gilded screen. On the left will be the *salon* of the kasadar or finance minister, who, in Tunis, which must evidently be the very abode of common sense, ranks as premier—as certainly he who keeps the key of the strong box, *de facto*, must be everywhere, whether in palace or cottage.

The dining room is very spacious. The *petits apartments* are each surrounded by a divan. The beds consist of a mat, a mattress, and blankets. Sheets are unknown luxuries. One corner of each of the *salons* will be curtained off from the rest of the apartments, in order that the Bey may be able to withdraw from public gaze when it may suit his fancy so to do. Bells will not be allowed, as it is considered more correct to summon attendants by striking one's hands together. The basement story is pierced by arcades, two sides of which are to accommodate the Bey's special pets, namely, two or three lions and a few panthers.

The arcades on the opposite side are to be occupied by Tunisian workmen, who will manufacture and sell the loveliest of velvet and embroidered cushions, leather and gold worked slippers, snowy silken *burnouse*, &c., &c. Be it remarked that fair Tunisian women will distribute coffee and cigars and sweetmeats to all comers in the *cafe*, which is to occupy the right angle of this basement story. Only think of purchasing delicious *kouskoussou* from a Tunisienne with the splendid dark eye and pouting, cherry lips and rich coloring for which the beauties of that empire are so deservedly celebrated, more especially when these charms are set off by the crimson and gold jackets and the many colored sash and the loose trowsers which contribute so essentially to their attractions! Behind the *cafe* will be a park for camels and gazelles, for which stables are being constructed.

D. J. MORRELL has written a letter in reply to the question what amount of Western agricultural produce the Cambria Iron Works, of which he is superintendent, now make a market for. He estimates the number of tons of rails produced by the Cambria works for the year ending October 31, 1866, at 45,000, and the amount expended in living by workmen for each ton at $65, making a total of $2,925,000. Of this sum $1,050,730 was paid to Western farmers, $319,050 to Southern farmers, to local farmers $371,800, and to foreign farmers $175,500. Considerably more than half of the nearly three millions of dollars which are paid to the employees of this one manufacturing establishment go into the pockets of American farmers, and more than two-thirds of the sum which is distributed among American farmers goes to the farmers of the West. Had the rails made by the Cambria works been imported from England, not one fifth of the part of the produce of Western farms for which the Cambria Iron Workers paid more than a million of dollars, would have been exported to England, and for that fifth the farmers of the West would have received lower prices than were paid them by American mechanics.

—The winter has been as severe in England and on the Continent as in the United States. A private letter from Paris dated on the 13th of January, reports that the cold is intense, and everything covered with frost and snow. The heaviest fall of snow for many years took place in Scotland on the 12th and 13th of January; railways were blocked up, and one fatal collision occurred. In London, January 18th, another heavy snow storm occurred. The mercury fell to two degrees below zero, navigation on the Thames was suspended, and the public works at Blackfriar's bridge and the Thames embankment were stopped. No boats had arrived at Dover from Calais for three days, owing to the blockade of the French railroads by snow, and the consequent detention of passengers. The English coal traffic was also impeded.

Mr. GEORGE MUIR, of Armstrong's Coal Works, Penn township, Allegheny county, speaks as follows of the

REV. E. A. WILSON'S

"I was reduced so low with consumption that I was unable to leave my bed, and my physicians informed me that they could do nothing more for me, my case being utterly hopeless, that I had not certainly over a month to live. SPREAD THE TRUTH.

Some medical men insist that it is undignified to advertise a remedy, however valuable it may be. Queer reasoning this. It is like saying that an article which the world needs should be hid in a corner—that benefits and blessings may be too widely diffused—that the means of protecting and restoring health should be a close monopoly, and not accessible to all. The argument is sad. It is worse than that; it is *inhuman*. Suppose HOSTETTER'S STOMACH BITTERS—an absolute specific for dyspepsia, biliousness and nervous debility—had never been known beyond the *repertoire* of the faculty, what would have been the consequence? Instead of curing and invigorating millions, the good effects of the preparation would have been confined to a comparative few. There is the highest authority for saying that light should not be hid under a bushel; that whatever is excellent should be placed as a city on a hill, where all men can take cognizance of it. It is upon the principle that the BITTERS have been advertised and continue to be advertised in every newspaper of any prominence in the western hemisphere, and that the spontaneous testimonials in its favor have been translated into all written languages. Thousands enjoy perfect health to-day who would be languishing on beds of sickness if the newspapers had not *spread the truth with regard to this unequaled invigorant and corrective far and wide.* Suppose profit has been reaped from this publicity. Is *that* any argument against it? If the public health has been protected; if lives have been saved; if the feeble have been strengthened and the sick restored, *great good has been accomplished;* and who so mean as to grudge to exertions thus directed their fair reward?

Haddopp, the Murderer—His Execution—History of the Case.

Jacob Frederick Haddopp, the murderer of Julius Worhele, was hung at Norristown, Montgomery county, on Wednesday, at about one o'clock in the afternoon. The Philadelphia *Press* of June 10th, contains the following account of the murder:

The following are the interesting particulars of an atrocious murder, which were made publicly known yesterday afternoon. The accused, it will be seen, is a native of the same section of the world where Anton Probst was born:

During the year 1865 there arrived in the city of Philadelphia a young German, Julius Worhele, a bookbinder by trade, native of the kingdom of Wurtemburg. Shortly after his arrival here he made the acquaintance of an unknown man, and Julius Worhele during last winter left his last place of employment in Philadelphia, in company with said unknown man, for parts unknown. A short time afterwards Worhele's corpse was found at the farm of Dr. Tiedeman, of Philadelphia, near Gwynned, Montgomery county, Pa. An inquest held at the time by William Forman, Esq., justice of the peace at Montgomery Square, clearly established the fact that Julius Worhele had been murdered at the spot aforesaid, his head having been smashed in, and the corpse having been found in the barn of said farm. It was also proved that Julius Worhele had been enticed to said place, which at said time was not occupied by the family, but was left in the care of a man, who at that time gave his name as Jacob or Joseph Haddopp, and who shortly afterwards disappeared.

During Aprial last W. L. Kiderlen, Esq., the consul of the Kingdom of Wurtemburg at Philadelphia, received information from his government that a letter had found its way directed to the relatives and guardian of the said Julius Worhele, at Rosenfield, the native place of the same, and apparently written by said Julius Worhele, in which letter the guardian was informed that Julius Worhele was in great need, and desired to be furnished money, the pretended Worhele informing the family that he at that time resided in Reading, Pa., and requesting that the money might be sent, payable to a letter of exchange, the answer to be directed "Julius Worhele care of Reading P. O." This letter was at once declared by the relatives of Julius Worhele to be a forgery.

Upon this information the consul, Mr. Kiderlen, sent a decoy letter, directed: "Julius Worhele, care of Reading P. O.," enclosing a draft of 100 florins payable at the consulate of Wurtemburg at Philadelphia, and requested the recipient of the letter to have this signature acknowledged before a notary public.

On the first of this month the German notary public of Philadelphia, Julius Wolff, Esq., acting representative of the Consulate of Wurtemburg at Philadelphia, received a letter from the President of the First National Bank at Allentown, enclosing the aforesaid decoy letter of exchange, and requesting the Consulate to pay said draft, which had been signed and acknowledged by the alleged Julius Worhele before a notary public at Allentown, to the order of said bank. The President of said bank and the notary at Allentown were of course unaware of the circumstances of this case, and strictly acted in good faith, as they believed the said pretended Julius Worhele to be the identical person entitled to receive said money.

Upon receipt of this letter by Julius Wolff, Esq., the arrest of the pretended Julius Worhele was caused forthwith by Wm. Forman, Esq., the justice of the peace aforesaid, and it was now ascertained that the pretended Julius Worhele was nobody else than the identical Jacob or Joseph Haddop (with several other aliases), who, as above stated, had been formerly employed at Dr. Tiedeman's farm, and evidently was the murderer of the real Julius Worhele, whose confidence he took advantage of to murder him for the purpose of obtaining the proceeds of his (Worhele's) estate in Wurtemburg, which, as officially stated, amounts to several thousand florins.

Jacob Joseph Haddopp, had a hearing on Thursday last, 7th of June, before Justice William Forman, at Montgomery Square, and was committed to answer to the charge of the murder of Julius Worhele, at the next term of the Court of Oyer and Terminer of Montgomery county. The charge of forgery will also, in the meantime, be prosecuted against said Haddopp before the authorities of Lehigh county, Pennsylvania.

The accused is about forty-five years of age, a native of Baden, and, therefore, a countryman of Antoine Probst.

The same gallows which have been used in the execution of all the murderers for the past eight or ten years at the Moyamensing Prison, were loaned the Sheriff by Mr. Perkins. The scaffold was erected in the prison yard immediately in the rear of and against the prison. It was almost entirely hidden from view, except from an adjoining church, and no persons except those authorized by law were permitted to witness the execution. Sheriff Beysher attended to the execution in person, and did not hire a person to pull the drop, as is usually the case. The execution had little remarkable about it. The criminal, before the fall of the drop, made a speech in German, declaring his innocence in the most solemn manner.

The Present Oil Production.

A correspondent of the Titusville *Herald* furnishes the following table of the estimated production of the oil regions of Pennsylvania, for one week ending on the 21st of January last:

	BBLS.
From Oil City to Tarr Farm, including Cherry Run	550
Tarr Farm	450
Story Farm	425
Central Petroleum Company	800
Stevenson and Bennehoff	1,600
Near Boyd Farm	100
Pioneer and McElhenny	800
Bull and Cow Run, etc	500
Pithole and West Pithole	700
Dennis Run and tributaries, Gordon, Dingley, etc	2,000
Allegheny River, including the Foster Farm	700
Hyde and Egbert Farms	400
Church Run	200
Total	9,230

These figures are deemed an exaggeration. It is believed the present oil production does not exceed, weekly, much more than one-half or two-thirds of this amount.

Taking Cold.

A thaw having set in and the consequence being that people are disposed to feel very warm, and are careless in their habits, a little advice as to the easiest manner of gratifying such as may be anxious to give the doctors something to do, may not be out of place. At this season persons who are partial to rheumatism, should wear thin boots and be careful to keep them well soaked in snow water. A quick fever can be secured by leaving off overcoats. Neuralgia complaints are open to all who walk till they become heated, and then stop at the corner of a street and cool off by a genial chat with some good fellow. Coughs are free to all who insist upon throwing open their coats in order to catch the gentle South breeze which prevails. The ladies are such thorough experts in this art that we need not offer them any suggestion, but by abandoning their cloaks and rubbers, and resorting to their boots and shawls, they will reach a gruel diet by a short cut.

United Brethren Conference.

The Pennsylvania Annual Conference of the Church of the United Brethren in Christ, convened at West Fairview, Pa., on the 24th ult., and had a pleasant session of five days. This Church has three conferences in Pennsylvania, the *Allegheny*, *East Pennsylvania* and *Pennsylvania*, numbering about sixty members in each, with a membership (communicant) of probably fifteen thousand. The entire membership of the church is over one hundred thousand communicants, with one hundred and fifty thousand Sabbath School children. The missionary and other enterprises of this church are in a flourishing condition, and are very liberally supported by the great wealth of their people. The sum of $2,500 was raised and expended by this Conference for missions during the last year. Bishop Glosbrenner, of Virginia, presided.

Common Pleas.

VERDICT RENDERED.

In the case of John Colton vs. the Cleveland and Pittsburgh Railroad Company, on trial before Judge Mellon and reported before, the jury on Thursday morning rendered a verdict in favor of plaintiff for the sum of $1,144.

THE TILE FLOOR CASE.

John M. Fulton vs. J. Heron Foster. Action on settlement of rent and advertising account. This case continued on trial before Judge Sterrett during most of Thursday. No verdict at adjournment.

The jurors were relieved from attending till Monday next.

District Court.

Before Hon. H. W. Williams.

STILL ON TRIAL.

The case of Wm. Fisher vs. Gillespie & Mitchell. Action to recover for work done under contract. Continued on trial during Thursday, and was not concluded at adjournment.

An Example.—Thirty years ago Simon Cameron was elected Printer of the State of Pennsylvania. Thirty-five years ago he worked as a compositor on the *National Intelligencer* at Washington city. When General Cameron was Secretary of War, printers were setting type in the *Intelligencer* office who had worked at case while General C. was a compositor in the same office. These are lessons of life which the apprentice and journeymen in all trades can study with profit.

Warrants Issued.—Justice Ammon, of East Birmingham, yesterday issued warrants for the arrest of Henry Heiman and Henry Hofferman, charged, on oath of David J. Thomas, night toll keeper at the south end of the Monongahela bridge with crossing the bridge at two o'clock yesterday morning without paying their toll. Five dollars fine is the penalty.

Glass Works.—The Sharon *Herald* says that about $40,000 have been subscribed for the erection of a glass manufactory in that place. This was raised on the promise of Pittsburghers to invest a like amount.

Oil Shipment.—The shipments over the Oil Creek Railroad for the month ending January 31, reached in round numbers about 68,000 barrels.

Longevity.—Mrs. Elizabeth Lynch, of Kittanning, died last week at the advanced age of one hundred and four years.

Reprehensible Apathy.

The Faculty of the Western University have not been able for several months, notwithstanding repeated efforts by notification and personal appeal, to get together, out of twenty-six trustees, a quorum of nine members for the transaction of some business on which the future progress and prosperity of the institution, if not its very existence and perpetuity, depends.

Without the action of the Trustees, application to the Legislature for a share of the land held by the State for educational purposes cannot be renewed.

The detail by the Secretary of War of an officer of the army to serve as Professor in the University of Military Science, &c., is not asked for, although such detail has been made lawful. For want of a quorum to accept it, a donation of $30,000 for the endowment of a Professorship in Astronomy and Physics, offered chiefly by a citizen deservedly esteemed among us as a devisor of liberal things, is in danger of being diverted in favor of some beneficiary more appreciative of the great service proposed.

It is passing strange that twenty-six gentlemen, or a majority of them, so respectable as the trustees of the University, will suffer interests so precious to the cause of education, to be sacrificed rather than spend an hour or two for their consideration. Each one, we suppose, thinks all the rest will meet and *he* will not be missed—with this idea, twenty out of twenty-six trustees have neglected the meetings. Let every one of the twenty-six resolve to be "*first, at last*" at the special meeting appointed for three P. M. this day.

A Criminal Husband.

On Wednesday evening, a shoe dealer, doing business on Carson street, East Birmingham, was arrested on a warrant issued by Justice Snyder, of Lower St. Clair township, an information having been made against him by a young lady who formerly lived in the family of Sauits as a domestic. Schultz, she alleges had illicit intercourse with her during her stay with him, and she is at present *enceinte*. Defendant entered bail before Squire Snyder yesterday for a hearing. The defendant is a married man, and has a wife and children.

Larcenious.—Information was made on Wednesday evening before Justice W. H. Barker, of South Pittsburgh, by John Kavanaugh, who charged John Mulroney, Martin Mulroney, Mary Kelly, and Frank Murphy, with larceny. Kavanaugh, boarded at the house of Mrs. Kelley, one of the defendants, at "Fort Limerick," in West Pittsburgh, and alleges that on Sunday, John Mulroney stole from him fifteen dollars in money, and the other defendants aided him in concealing it. Mrs. Kelley and Murphy were arrested and held for a hearing. The others are not yet arrested.

FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, Feb. 7, 1867.

The New York stock quotations to-day, as reported by Robinson, McClean & Co., were as follows: Gold, 138; Eighty-one bonds, 108¾; Five Twenties, old 108¼; Five Twenties, '65, 107¼; Five Twenties, new, 105; Seven Thirties, 105⅝; Cleveland & Pittsburgh, 84; Pittsburgh, Fort Wayne & Chicago, 98½; Erie, 60½; Michigan Southern, 74⅝; Chicago and North Western, 38; Chicago and North Western preferred, 68½; Chicago and Rock Island, 99; Western Union Telegraph Co., 44⅝; New York Central, 103¼.

—The action of the House of Representatives in passing a resolution instructing the committee on ways and means to report abill to prevent a reduction of the currency, creates general surprise. The measure, it seems, was carried by Western influence, the Iowa members being particularly anxious to have some decided expression from the House against contraction. They succeeded, after two failures, in finally passing the resolution by a vote of 87 to 67. Mr. Morrill's motion to lay on the table having been first voted down—yeas 79, nays 82. This bill, which the committee is instructed to report, will, if enacted, postpone indefinitely the policy which alone can give back solvency. It will tend to fasten upon us an irredeemable paper currency, despite the warnings of the wisest financiers, and in violation of their soundest counsel.

—The Senate finance committee on Tuesday adopted the bill proposed by the leading bankers of the country, with the indorsement of the Secretary of the Treasury, for funding the compound interest notes, and providing for the issue of $100,000,000 of 4 per cent loan certificates.

—Inquiries are constantly being made of us regarding the precise character of the contraction law passed last April. We reply in a few words. This law empowered the Secretary of the Treasury to sell Five-Twenties, and with the proceeds to retire compound interest notes, greenbacks, and other indebtedness of the Government; but it forbade him retiring more than four millions of greenbacks a month, or more than forty-eight millions a year. *There was no restriction* as to the amount of compounds which he might withdraw during any month. This law leaves large discretionary powers with the Secretary. Six hundred and fifty millions of Seven Thirties fall due before July 15, 1868. Should Five-Twenty bonds fall below par, the conversion of Seven Thirties into the class of gold-bearings would at once cease. A stringent money market would lead at once to the last named result.

—The proposed bill to substitute for the present legal tender compound interest notes loan certificates bearing four per cent per annum interest, and convertible into greenbacks at ten days notice, to be used by the banks to the extent of $100,000,000—one half of the banks legal tender reserve—has been interpreted by stock operators as further inflation, although it is merely the substitution of one kind of legal tender paper money for another, and in the long run, a contraction of from forty to eighty millions.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, January 7, 1867.

The produce markets present no new characteristics worthy of notice, and with the exception of those articles which sympathize with the fluctuations in gold, there are no material changes in values.

GROCERIES—The market in general is firmer, and refined Sugars are a fraction higher. We now quote at 11½ to 12 for Cuba Sugar; 12 to 13 for Porto Rico; 14½ to 15 for prime New Orleans; Crushed, 16¾ to 16½; "A" Coffee, 15¾; "B" do Coffee, 15; "C" Extra, at 14¾. Rio Coffee is quoted firm at 26 to 26½, for strictly prime to choice Rio, and 25 for prime. New Orleans Molasses, 90; Porto Rico, 80. Booth & Edgar's Syrup, 80; Lovering's, $1,10. Teas firm but unchanged.

GRAIN—Wheat is very dull, but prices are nominally unchanged—$2,55 to $2,60 for No. 1 Spring, and $2,85 to $2,90 for prime Red Winter. Barley is in fair demand, and a shade firmer; sales of No. 1 Spring at 90 to 95. Oats quiet and unchanged—small sales at 47 to 48, on track, and 50 to 52, in store. No movement in Corn; small sales at 78 to 80. Rye may be quoted at $1,20 to $1,25.

FLOUR—Continues dull and unchanged. Small sales in store, at $11.50 to $12,25 for common to well-known standard Spring Wheat brands; $13,50 to $14,00 for Winter Wheat, and $16,00 to $17,00 for fancy St. Louis brands. Rye Flour is quoted at $7.75 to $8,00 per bbl, and Buckwheat at $3,50 to $3,75 per cwt.

PROVISIONS—Bacon is selling in a jobbing way at 11 to 11½ for Shoulders, and 15¼ to 16 for Sugar Cured Hams. Prime kettle rendered Lard is quoted at 12½ to 12¾. No movement in Mess Pork or Bulk Meat.

SEEDS—Sale of 20 bushels Timothy Seed at $3,25. Flaxseed is in steady demand at $2,65. Cloverseed, in the absence of sales, may be quoted at $8 to $8,50.

BUTTER—There is a fair demand for prime Roll Butter, and prices have still further advanced. We can report regular sales at 35 to 38—would doubtless bring 40, in small packages.

EGGS—Fresh packed continue scarce and may be quoted at 50 to 55.

HAY—Is quiet and unchanged; prime baled may be quoted at $25,00 to $26,00 on track.

DRIED FRUIT—Apples are selling in small lots at 9 to 10c, as to quality. Peaches firmer, owing to an important advance in the east, though, as yet, there is no quotable advance in this market. We hear of a Philadelphia dealer paying 20c, for prime halves, to ship to that market.

OIL—Lard Oil is reported steady, with regular sales at 88 to 90 for No. 2, and $1,12 to $1,15 for No. 1.

BEANS—Steady with sales of prime small white reported at $2,75 per bushel.

PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, February 7, 1867.

CRUDE—The market for Crude continues quiet and dull but unchanged. We can report small sales of "Smith's Ferry," on the spot, at 7 to 7½, packages returned, and 12 to 12½, packages included, according to gravity. Venango oil is reported dull and unsettled; we hear of offers to buy at 8½c possibly, 8¾, but there are no sellers, so far as we learn, below nine cents, for spring delivery. For Kanawha oil, there are buyers at nine cents, to arrive, but no sellers below nine and a half. Thus, the market stands at present, with buyers and sellers apart in their views and feelings, and consequently, we have but very few transactions to report. The prospects at present, are not very flattering for an early resumption of navigation between here and Oil City.

REFINED—The market for bonded oil remains in much the same condition it has been in for some time past, dull and unchanged. We hear of an occasional offer to-day, mainly for future delivery, but sellers at present prices, are fully as scarce as buyers, and consequently, there are but few operations to record. It is an old proverb, that "it is always darkest just before day-break," and our refiners are holding back, in hopes of a much better market and higher prices. For free oil, there is but little inquiry, and we continue to quote standard brands at 43 to 44, in a jobbing way.

—Since the above was put in type, we have the following sales reported: 1000 bbls for March delivery, in Philadelphia, seller's option, at 29¼, and 1000 bbls for April, same option, at 30½.

ARRIVALS—The following arrivals of oil were reported to-day—all from Smith's Ferry:

Jas. Gallagher....	53	J. K. Barbour....	166
A. H. Dohrman...	52	C. H. Denight....	59
National Ref Co..	49

CENTRAL LIVE-STOCK MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, February 7, 1867.

CATTLE.

The receipts of cattle have been unusually light thus far this week, and with a light supply and an average attendance of buyers, all the offerings found a ready sale at an advance of from ¼ to ½ a cent per pound, compared with last week. The transactions in the aggregate, were light, which was owing to the very limited offerings, and while buyers "pitched in" with more freedom, they paid the advance very grudgingly, but they had only two alternatives, to go home empty or pay what holders demanded. Prime shipping cattle, suitable for retailing in the eastern markets, sold from 7½ to 8, gross, and "Tommy" Lamb sold one drove of extra fat Ohio oxen at 8¼ but this was an extraordinary bunch of cattle, and the price obtained cannot fairly be taken as a criterion of the market. Medium cattle, of which there was a fair number on sale, sold at from 6¼ to 7c, and common to fair at 5 to 6. It is thought that the advance in prices will have a tendency to increase the arrivals next week, and, as always is the case, an over supply brings out a bad market for sellers.

HOGS

There has been a steady shipping demand for Hogs throughout the week, and compared with last week, prices have advanced from ⅜ to ½ a cent per pound. Last week, prime heavy averages sold at from 7½ to 7⅝, while this week the same grade of Hogs brought from 7⅞ to 8, and one or two bunches of extra sold as high as 8¼. Holmes & Lafferty sold 650 head at 7,40 to 8,12½, and bought 500 head at 7 to 7,25. Crouse, Emerick & Co. report having shipped about 1000 head to Philadelphia, 450 of which they bought here at 7,37 to 8—balance were bought in Chicago. Mace & Orr sold 250 at 7,25 to 7,55. Singer & Imhoff bought and shipped to Philadelphia and Baltimore 1500 head, which cost from 7.50 to 8. Gilchreist & Reyenthaler shipped 1200 head to Philadelphia and 350 to Baltimore, paying on an average 7,90 for the former, and 7,62½ for the latter.

SHEEP.

The arrivals of Sheep were considerably larger than last week, and with only a moderate demand, the market ruled a little dull, and if anything, prices are a shade lower, taking the quality of the stock into consideration. As will be seen by reference to the sales, prices ranged all the way from 4½ to 6½, and these may be regarded as the extremes of the market—to-day there were but few if any buyers at anything over 6. Hesser reports having shipped nineteen car loads to Philadelphia, which cost from 4 to 6¼; Erisman reports 8 bunches at 4⅞ to 6½. Rawl bought 182, averaging 92 lbs, at 5¼; McClave sold Loyd 90, averaging 85 lbs, at 5¾. Pancoast bought 185 at 5. Mace & Orr sold 180 head common, at 4¾. There were some other transactions, but we were unable to get particulars, and, besides, we have given to indicate the general tone of the market.

REPORTED SALES OF CATTLE FOR THE WEEK ENDING FEB. 7, 1867.

Mace & Orr sold 17 head medium steers, averaging about 1230, at 7,10 or $89 per head. Smith & Talmage 50 medium steers, averaging 1100, at 6,60. Mills to Jones & Brooks 18 head, weighing 22,900, at 7¼. Huff to Mooney 12 head, weighing 12,950, at 5¾. Huff to D. Smith 36 head, weighing 42,725, at 6¾.

Ward to McGarvey 34 head, weighing 42,550, at 7,15. Dickenson to Mooney 13 head, weighing 14,200, at 6½. Huff to Duffey & Co. 18 head, weighing 18,300, at 5½. McPherson to Powers 21 head, weighing 20,275, at 5¾. Lamb to Maynes & Co. 12 head, weighing 21,925, at 8,50. Maynes to Klemen 2 head of extra cattle, weighing 4,175, at 10¼.

Clifford to McCormick & Mann 35 head, weighing 38,875, at 7. Montague to Herteeck 15 head, weighing 18,425, at 6¼. Huff to Hedges & Co. 46 head, weighing 57,675, at 6¾.

Whittaker to Duffey & Co 10 head, weighing 11,500, at 6. Huffman to Mooney 20 head, weighing 18,750, at 5; same to same 16 head, weighing 19,850, at 5¼. Huff to Tood 19 head, weighing 15,275, at 5; Chryst to Dawson 18 head, weighing 18,400, at 5.

RIVER NEWS.

The river continues to recede rapidly at this point, with little over feet eight in the channel by the Monongahela pier marks last evening. The weather yesterday was clear and pleasant, and all that could possibly be desired for the transaction of outdoor business.

There has been no arrivals since our last report, and the Maggie Hays, for Cincinnati, with an excellent trip, was the only departure. There are some boats due, among others, the Glasgow and Argosy.

Capt. C. L. Brennan has purchased the controlling interest in the Parkersburg packet Grey Eagle, at the rate of $18,000 for the entire boat. This action has made it necessary for Capt. Brennan to resign his position as Superintendent of the "Pittsburgh & St. Louis Packet Company," as he intends taking command of the Eagle himself, and continuing her in the Pittsburgh and Parkersburg trade. Under the administration of such a man, the Eagle is destined to become very popular with the patrons of this trade.

The gentlemen appointed by the Persident of the Board of Trade to attend the St. Louis Convention on the 12th inst., met at the Board of Trade rooms on Wednesday afternoon. Twenty of the number appointed will attend the Convention to look after the interests of our river trade. The meeting adjourned to meet again on Friday forenoon at eleven o'clock, when the route to be taken, etc., will be determined upon.

Mr. D. D. Davis, late Allegheny wharfmaster, has kindly furnished us with a report of his operations during the year ending January 31, 1867. He reports having received 268,403 barrels of crude oil, on which he collected wharfage to the amount of $5,368 06; also, collected of oil flats $2,686 81; of eight passenger steamboats, $1,977 82; tow boats and boats built within his jurisdiction, $1,388 27; miscellaneous flats, $1,030 77; lumber and shingles, $679 76; pig metal, $249; transient steamers, $679 76; canal and keel boats $301 25; Rent for gathering oil, $105. Total cash receipts for wharfage, $15,338 06; amount of wharfage uncollected, $74,21. Mr. Davis made a very faithful wharfmaster, and was well liked by all who were thrown in contact with him.

Lew Oberlin resigned his position as steward of the Maggie Hays yesterday to accept a similar position on the Parkersburg packet Grey Eagle. We commend the good judgement of Capt. Brennan in securing the servises of Lew, as he is the right man in the place.

The New York, Capt. Coffin, is filling up steadily for St. Louis, and will on Saturday without fail, and passengers and shippers should bear this fact in mind.

The Grey Eagle, Capt. Brennan, is the regular Saturday packet for Parkersburg—the Bayard on Monday, and the Leni Leoti, on Tuesday.

Thus far, none of the tow boats that left here with coal have met with any disasters, and as the river is in fine navigable condition, we have no doubt but what they will get through with but very little difficulty.

Captain Aleck McGowan, who has been on the sick list for some days past, is getting better.

MARIETTA, OHIO, February 5.—6:15 P. M.—Fifteen coal barges were swept out of the mouth of the Muskingum River on Saturday night and started down the Ohio. Steamboats all safe. The Golden Era is reported sunk at Captina. Ice running thinner; river 30 feet and falling slowly.

LOUISVILLE, February 5.—THE ICE MOVEMENT—EXTENT OF DAMAGES.—In the *Courier* we have detailed the movements of the ice from day to day since the blockade, and we will now add a general summary of the accidents and casualties. The first start of the gorge was on Sunday morning about five o'clock. This was the ice above the city, damaging in its course a laden barge of coal, the property of the Iron City Coal Company, also a boat of nut coal at the coal landing above Jeffersonville, belonging to W. Robbins. By the extraordinary exertions of the crews, and the assistance of the towboat Fred. Wilson, these boats were saved. On the Kentucky shore an empty barge of C. Miller & Co. was badly damaged and an empty flat was torn loose and went over the falls, and was landed at the Portland wharf. An empty barge belonging to Farrow & Gumbert, was sunk opposite Cromie's landing, and Olmstead & O'Conner had a flatboat sunk, and the Iron City Coal Company had their barges thrown ashore and several broken loose, but all landed safe at Portland.

About 2 o'clock p. m., Sunday, the gorge of ice extending from the tow head to the waterworks, a field of fully one hundred acres, began to move and creak away, swinging toward the Indiana shore, striking the coal fleet opposite Josh Cook's boat house, making a complete wreck of a boat of coal, the property of John Penney, doing no other damage among the coal fleet but breaking loose three empty barges, lying just below, including one of the Warsaw Coal Company, a complete wreck, also one of the Jefferson Barge Company, and one of S. Roberts & Co., supposed to have been landed below the falls. The wharf boat at Jeffersonville was broket loose and sunk, proving a total loss. Jones & Co's. coal fleet was driven on shore and wrecked, and the two Jeffersonville ferry boats carried over the falls, without sustaining any material damage.

At five o'clock Sunday evening the gorge of ice extending from Six Mile Island to the head of the coal fleet, began to move off, while the tug boat Fred. Wilson was trying to break it. It was estimated to cover an extent of fully twenty acres, and did but little damage beyond tearing twelve empty barges loose from their moorings. These were captured by the Kate Ellis and Fred. Wilson, and landed below Howard's ship yard.

During Saturday night the gorge of ice at the mouth of the canal was broken loose and floating off in a body, jammed the boats at Portland ashore, and sunk two coal boats at West Louisville, one belonging to E. W. Crittenden, and the other the property of Day & Jenkins.

The above include about all the mishaps at this port thus far by the breaking up of the ice.—*Courier.*

The R. C. Gray and Bellevernon are loading at Cincinnati for Pittsburgh. We clip the following items from the Cincinnati *Commercial*, of Wednesday:

The veteran Captain David Hiner, U. S. N., is in the city on a visit to his family and friends. He is still regulating the iron-clad fleet at Mound City. Mr. G. Wash. Bercaw, clerk of the C. T. Dumont, succeeded in launching his little craft successfully, at Madison, on Friday. Wash. is delighted with his success, this being his first venture. Cap. W. B. Anderson arrived from Pittsburgh yesterday. He will load the R. C. Gray for Pittsburgh forthwith. Among the passengers by the Robert Burns, for Memphis, last night, was the veteran Captain Horatio L. Church, who goes to that city to locate permanently with his brother, Capt. Charley Church. Capt. H. L. Church is one of the oldest commanders on the Western and Southern waters. The arrival of the Silver Moon from Memphis, last evening, created considerable stir along the levees. She presented a magnificent appearance, with her cargo of fifteen hundred bales of cotton, it being stored on her forecastle as high as her hurricane roof. The St. James was laid up in the Big Kanawha river, at last accounts, waiting for the ice to run out. She will doubtless arrive here to-day. The tow boat Champion caught a raft drifting in the ice yesterday, and landed it at the foot of Fifth street. The St. Charles, now loading for New Orleans has been thoroughly overhauled, and refitted and refurnished by Capt. Hugh Campbell. Capt. Geo. Hart, an old favorite in the trade, controls affairs in the office of the St. Charles. Six empty coal barges, belonging to the towboat Fearless, were broken loose by the ice at Peyton's Island, and were still adrift at last accounts. Capt. Crain, advertises the steamer Alice V. for sale or charter.

MISCELLANEOUS.

PURE CALIFORNIA WINES.

GURNER & CO.,

No. 80 Cedar St., New York,

Offer for sale these valuable Wines, which are gaining public favor with astonishing rapidity, and whose unprecedented and unrivalled popularity is not without merit. They have only to be fairly tested to give them the preference over all others. As a purifier of blood they excel all other Wines, and the numerous certificates which have voluntarily been tendered from the most eminent physicians, as well as gentlemen in every position in life, are proof conclusive that these Wines are useful in all cases for which they are recommended.

The following brands are now offered by us. They comprise all the varieties now grown in the State suitable for sale:

WHITE, or HOCK WINE—Of a light straw colored, very delicate and fine flavored.

CLARET—A superior wine for table use.

ANGELICA—A rich and naturally sweet wine, much admired by ladies, and valuable in the sick chamber, as it makes fine wheys and jellies. It is a fine desert wine, and well adapted for Communion purposes.

MUSCATEL—A light colored, highly flavored wine. Very similar to the celebrated [illegible]

PORT—Deep red color, fine flavor, and in all respects similar to the old wines of Lisbon.

GRAPE BRANDY—The pure distillation of our wines.

WINE BITTERS—A very agreeable tonic and a sure remedy for the diarrhea.

This is one of the most valuable combinations of a useful and an agreeable beverage that has ever been offered to the public. Millions of bottles were sold throughout the North during the last four years, and wherever introduced it has proved a welcome addition to the invalid table, the family circle, and the bachelor's sideboard.

Ladies who have lost strength and appetite, and suffer from nausea, vomiting and vertigo; gentlemen who "don't feel very well" just before breakfast or dinner, whose stomachs are out of order, and whose systems are generally deranged; mothers weaning children and suffering from general debility; children of sickly nature and sour, dyspeptic constitutions; travelers who have occasion to change their water; and all who live in malarious districts and are subject to miasmatic influences, will find it one of the most valuable invigorators that can be taken.

It was used very extensively in 1861, with such general satisfaction that in offering it to the public now we deem it unnecessary to publish any of the many certificates that we have received, testifying in the very strongest terms in its favor. All that we can say is to guarantee that we will pledge ourselves to furnish an article PURE AND UNADULTERATED.

It has been given to little children suffering from weakness and weak lungs with most happy effect. One little girl, in particular, with pains in her head, loss of appetite and daily wasting consumption, on whom all medical skill has been exhausted, has been entirely restored. She began with but a teaspoonful a day. Her appetite and strength rapidly increased and she is now well.

CONSUMPTION.

Our son, JAMES PAINTER, some three years of age was afflicted with consumption of the lungs for which he was discharged from the army. He was examined by four army physicians, who all agreed that he must die with the disease. We brought him to Dr. KEYSER, 140 Wood street, (now 120 Penn street,) who, after sounding his lungs, commenced to treat him, and cured him sound and well. He is now well and has been so for the past three years. Others afflicted in like manner can likewise be cured.

JAMES PAINTER.
MARY ANN PAINTER.

Temperanceville, Sept 5th, 1866.

PITTSBURGH, December 31, 1866.

A GREAT CURE BY DR. KEYSER'S PECTORAL SYRUP. I live in Peebles township, Allegheny county. I had a cough and spitting, which commenced about the 4th of February last, and continued eighteen months. I employed the best physicians in the country, and my cough continued unabated until early in October. At that time I was advised to try your Pectoral Cough Syrup, which I did, and after I had taken one bottle, I was entirely free from the coughing and spitting. I had despaired of ever getting well, and I think that it should be known that this valuable remedy will do for others what it has done in my case. JOHN C. LITTLE,

Witness—R. M. KERR. Peebles township.

A case of five years' standing cured by Dr. KEYSER'S PECTORAL SYRUP.

PITTSBURGH, January 11, 1859.

DR. KEYSER:—My wife has been afflicted with a cough and difficulty of breathing for five or six years, which, for several years back, had gradually increased in violence. The complaint has been hereditary, and she had been treated by several physicians without any relief. In this state of her case I procured some of your PECTORAL COUGH SYRUP. I bought the first time a fifty cent bottle, which relieved her very much; I then called and got a dollar bottle, which cured her entirely, and she has now no trace of the former disease, except weakness. I would also state that I used the medicine myself to a cold and cough. The medicine cured me by taking one dose. I express my entire satisfaction with the medicine, and you are at liberty to publish this if you desire to do so.

WM. WILSON,
Alderman, Fifth Ward.

WHOOPING COUGH.

Below will be found a certificate from Doctor M. DUPUY, one of our most respectable dentists, in regard to Dr. Keyser's Pectoral Syrup. The Pectoral Syrup is also an infallible cure for every form of cough and cold to which we are liable.

PITTSBURGH, June 23, 1862.

DR. KEYSER:—Dear Sir: I have for a long time been opposed to advertised or patent medicines, and it is with reluctance that I recommend any of them. The consideration, however, that I am doing the community a service, induces me to overcome my objections, and to publicly recommend your Pectoral Syrup. We have kept it in our family for the last five or six years and have given it for coughs, such as are produced by colds, &c., with the effect of alleviating or entirely arresting them. During last winter our children were exposed to the infection of whooping cough, and each one of our three boys was attacked with what we believed to be that malady. We administered your Syrup liberally, and the result was, that the whooping cough lasted with neither of them more than ten or twelve days. I hope others will at least make a trial of your medicines in such cases, as we have found it beneficial. Yours,

M. DUPUY, No. 21 Wylie street.

HERNIA OR RUPTURE.

It will be observed that we have published for some time past an advertisement of Dr. George H. Keyser, of 140 Wood street, Pittsburgh, Pa. in reference to Trusses and other mechanical appliances for the cure and relief of hernia, rupture, besides various broken down conditions of the human body which are usually beyond the reach of medication. Dr. Keyser has given this branch of the business great attention for several years past, and we think we are justified in saying that he comprehends it thoroughly. You can get at his store, Shoulder Braces for weak breasts, Elastic Stockings for varicose veins, Pile Props for the cure of Piles, and, in fact, every variety of mechanical appliance. Dr. Keyser is the inventor of a Truss for the radical cure of Hernia or Rupture, so perfect in its parts and so comfortable to the wearer, as to elicit the admiration of all who may need such an appliance.

He has recently been in communication with some of the ablest and most experienced truss surgeons in the United States, and feels satisfied that all those who have been plagued or annoyed with ill-fitting and uncomfortable trusses, can be accommodated by calling at his consulting rooms, No. 120 Penn street, or at his Medicine and Truss Depot, 140 Wood street. Office hours from eight to eleven A. M., and one to four P. M.

DEAFNESS AND THE EAR.

Many persons have rested content in the belief that skin and ear diseases, however troublesome, will wear out of themselves, or that no remedy will avail in effecting a cure: in this way many persons have suffered through half a dozen years, who might easily have been relieved at the onset in as many weeks. So also with regard to the ear, a prejudice has obtained that the ear is too delicate an organ to be treated, or as is often expressed, TAMPERED WITH; hence hundreds have thus remained deaf for the greater part of a lifetime, who might have been greatly relieved, and in many instances, completely restored to their hearing, had proper assistance been timely applied for, as may readily be seen by a perusal of the following certificate. We also take occasion to remark that the testimonial comes from a source close at hand, in Allegheny City, where, upon inquiry, any one interested can satisfy themselves of its truth:

PITTSBURGH, July 28, 1864.

DEAR SIR:—I take pleasure in adding my testimony to that of others in favor of Dr. Keyser's treatment of deafness. My son had been afflicted for five years with deafness produced from scarlet fever. At times he could not hear at all; and could only understand as we would motion to him. His speech had also become affected. Having tried other remedies without receiving any benefit, I applied to Dr. Keyser, and under his treatment he has entirely recovered, and can now hear as well as ever he did.
